

What Grammarly can help Teacher/student

Grammarly is a powerful AI-powered writing assistant that offers a range of tools to support both teachers and students in improving their writing, communication, and academic integrity. Below is a concise breakdown of how Grammarly can help, tailored to the needs of teachers and students, with insights drawn from relevant sources:

For Students

Grammarly enhances students' writing skills, fosters confidence, and ensures academic integrity across various tasks:

1. Writing Improvement:

- **Real-Time Feedback:** Grammarly provides instant corrections for grammar, spelling, punctuation, and style issues, helping students polish essays, reports, and assignments. It explains the reasoning behind corrections, promoting learning over time.[grammarly.com](https://www.grammarly.com)
- **Clarity and Tone Adjustments:** It suggests ways to simplify complex sentences, improve clarity, and adjust tone (e.g., formal for essays or confident for professional emails), ensuring writing suits the intended audience.[classplusapp.com](https://www.classplusapp.com)[grammarly.com](https://www.grammarly.com)
- **Vocabulary Enhancement:** Offers synonyms and nuanced word choices to diversify vocabulary and strengthen expression, especially helpful for English language learners (ELL) or students refining their voice.[commonsense.org](https://www.common sense.org)

2. Brainstorming and Structuring:

- **Generative AI Features:** Assists with brainstorming ideas, drafting outlines, and building research plans, helping students overcome writer's block and organize thoughts for assignments.[grammarly.com](https://www.grammarly.com)
- **Prompt-Based Support:** Provides pre-written prompts like "Draft an outline" or "Brainstorm topics" to guide students through complex assignments, such as writing on broad topics.[grammarly.com](https://www.grammarly.com)

3. Academic Integrity:

- **Plagiarism Detection (Pro/Premium):** Checks for unintentional plagiarism, ensuring originality and helping students avoid academic penalties.[grammarly.com](https://www.grammarly.com)

- **AI Detection (Pro/Premium):** Identifies AI-generated content, allowing students to verify their work's authenticity and properly cite AI use.[grammarly.com](https://www.grammarly.com)
- **Citation Support:** Automatically generates and formats citations in APA, MLA, or Chicago styles, reducing errors in referencing.[techlearning.com](https://www.techlearning.com)[grammarly.com](https://www.grammarly.com)

4. **Confidence and Autonomy:**

- Empowers students to self-edit, reducing reliance on teachers for basic corrections and building confidence in their writing. 94% of students report improved grades with Grammarly Pro, and 87% save over an hour weekly.[classplusapp.com](https://www.classplusapp.com)[grammarly.com](https://www.grammarly.com)
- Tracks progress over time, showing students how their writing improves, which is motivating for long-term growth.[grammarly.com](https://www.grammarly.com)

5. **Accessibility:**

- Works across platforms (Google Docs, Microsoft Word, email, Canvas, etc.), allowing seamless integration into students' workflows without breaking focus.[grammarly.com](https://www.grammarly.com)[grammarly.com](https://www.grammarly.com)

For Teachers

Grammarly streamlines educators' workflows, enhances feedback, and supports teaching writing skills:

1. **Time-Saving Feedback:**

- **Automated Proofreading:** Grammarly catches low-order errors (grammar, spelling, punctuation), allowing teachers to focus on high-order concerns like content, argumentation, and structure. This reduces grading time and effort.[sciencedirect.com](https://www.sciencedirect.com)[academicinfluence.com](https://www.academicinfluence.com)
- **Consistent Feedback:** Provides standardized suggestions, ensuring fair and clear feedback across student submissions.[weareteachers.com](https://www.weareteachers.com)

2. **Teaching Tool:**

- **Instructional Aid:** Teachers can use Grammarly to demonstrate writing principles (e.g., active vs. passive voice, sentence structure) during live demos, turning it into a learning resource.[classplusapp.com](https://www.classplusapp.com)[mtlconestoga.ca](https://www.mtlconestoga.ca)

- **Encouraging Critical Thinking:** By discussing Grammarly's suggestions (e.g., why certain changes are proposed), teachers can foster debates on style, tone, and voice, helping students develop critical editing skills.classplusapp.com/tlconestoga.ca
- **Support for ELL Students:** Assists with sentence formation and vocabulary, making it easier to teach non-native speakers or students with learning challenges.commonsense.org

3. Plagiarism and AI Transparency:

- **Grammarly Authorship:** Tracks text sources (human-typed, copied, or AI-generated) in Microsoft Word and Google Docs, providing transparency for assessing student work.grammarly.com
- **Plagiarism Checks:** Teachers can run assignments through Grammarly's plagiarism scanner to ensure originality, saving time compared to manual checks.commonsense.org

4. Professional Communication:

- Helps teachers craft clear, error-free emails, lesson plans, and handouts, avoiding embarrassing typos and ensuring professional communication with parents or colleagues.weareteachers.com/commonsense.org
- Simplifies complex instructions for younger students by suggesting concise phrasing.classplusapp.com

5. Institutional Integration:

- Grammarly for Education programs, like the pilot at the University of Illinois Chicago, provide free access to Pro features for students and faculty, aligning with institutional style guides and enhancing campus-wide communication.it.uic.edu

Considerations and Best Practices

- **Not a Replacement for Teachers:** Grammarly should complement, not replace, teacher feedback. It excels at catching mechanical errors but may miss contextual nuances or stifle a student's unique voice if overused.standard.asl.org/blog.penningtonpublishing.com
- **Critical Use:** Encourage students to review suggestions critically rather than accepting all changes, as this promotes learning and preserves their writing style.classplusapp.com/commonsense.org

- **Privacy and Supervision:** For younger students, teachers should review Grammarly’s privacy policies and supervise usage to ensure data security.[classplusapp.com](https://www.classplusapp.com)
- **Potential Misuse:** Some teachers express concerns about over-reliance, which could make students “lazy” or tech-dependent. To counter this, integrate Grammarly with discussions about why corrections are suggested.[standard.asl.org](https://standard.asl.org/blog)blog.penningtonpublishing.com
- **Academic Integrity Concerns:** While Grammarly is generally accepted as a study aid, some institutions may flag its use in assessments as unfair. Teachers should clarify policies, as seen in cases where students faced penalties for using it without explicit permission.[reddit.com](https://www.reddit.com)
